CPKC

ADVANTAGE

PACIFIC TRANSLOAD EXPRESS

Take advantage of an integrated logistics solution

- Maersk's Pacific Transload Express facility is strategically co-located in CPKC's Vancouver Intermodal terminal
- Reduces customer's port storage and costs
- CFS Bonded & Sufferance licensed: creating options to help manage industry risks
- Direct CPKC service to key North American markets provides inland connectivity
- Maersk technology integration & custom reporting, using automation technologies to leverage AI to optimize workflows, production planning and improved visibility
- Streamlined product integration with single source contact for drayage, transload and rail transport
- Enables late-stage routing decisions
- Easy end-to end pricing and booking processes
- Value add service that includes, but is not limited to: customs exams, labeling, sorting, repackaging and intact container storage
- Reduced transit time variability, resulting in improved efficiency and enhanced reliability

250 **CONTAINERS SHIPPED WITH CPKC FROM VANCOUVER TO TORONTO WOULD RESULT IN:**

- **71% REDUCTION IN CARBON FOOTPRINT**
- **765 METRIC TONS OF GHG EMISSIONS SAVED**

GHG EMISSIONS*

CPKC — 314 metric tonnes

765 METRIC TONNES OF GHG EMISSIONS SAVED

TRUCK — 1,079 metric tonnes

1000 kg = 1 metric tonne

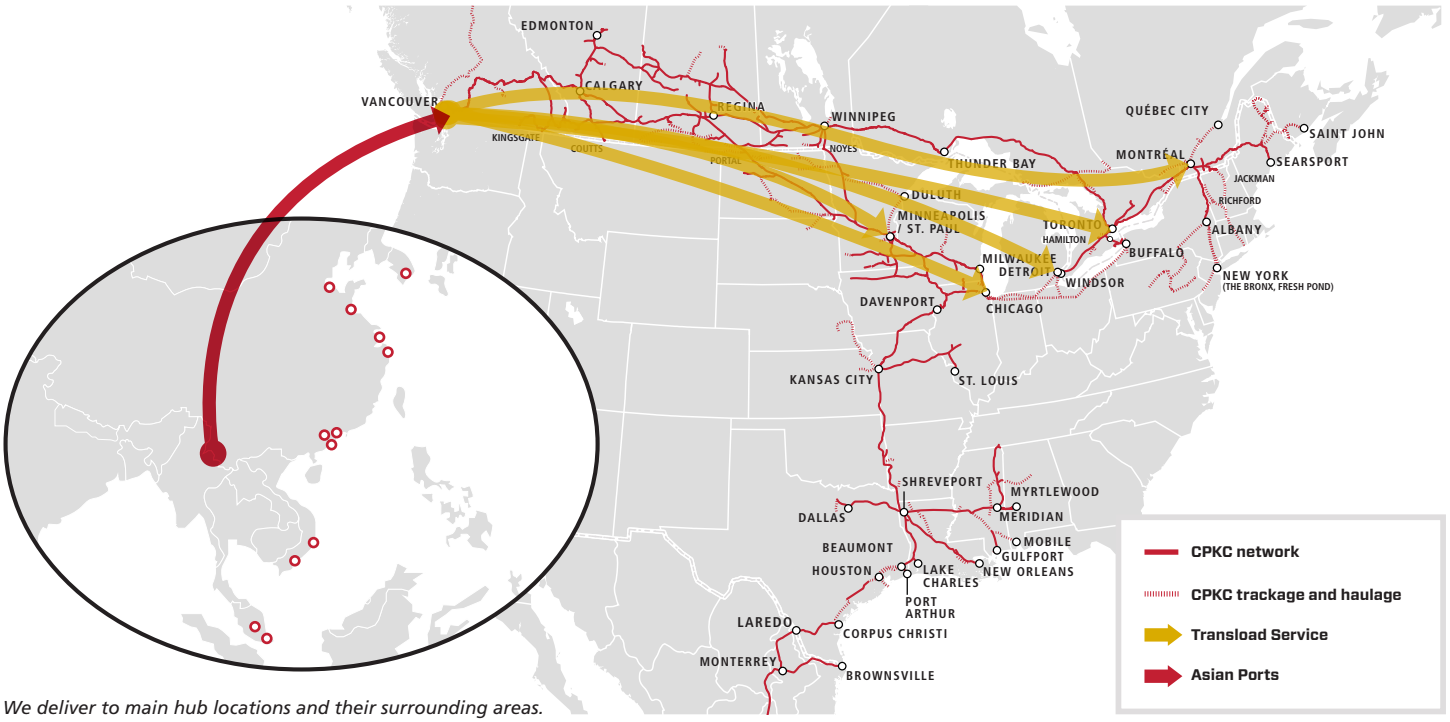

SHIPPING YOUR FREIGHT WITH CPKC HAS THE POTENTIAL TO REDUCE CARBON EMISSIONS BY

71% **OVER LONG-HAUL TRUCKING ALTERNATIVES**

CO_2

**Data compiled from CPKC Carbon Calculator, comparing intermodal 53 feet containers.*

Connecting Asia-Pacific gateways to transload hubs across North America

We deliver to main hub locations and their surrounding areas.

CPKC

ADVANTAGE

PACIFIC TRANSLOAD EXPRESS

Container consolidation

TRANSLOAD

TRANSFER YOUR CARGO FROM OCEAN CONTAINERS DIRECTLY INTO OUTBOUND TRAILERS

- Prioritize cargo earlier in the supply chain
- Consolidate three containers into two trailers, reducing inland transportation expense
- Maximize cubic meter (CBM) capacity per container

CROSS-DOCK

TRANSFER YOUR CARGO FROM CONTAINERS DIRECTLY TO TRAILERS FOR MULTIPLE DESTINATIONS

- Allow last-minute flexibility in distribution of cargo
- Reduce storage and inventory cost at customer distribution center
- Use intermodal OTR containers to facilitate transition to last mile
- Hold inventory to combine products/orders into other containers
- Solutions include labeling, product preparation, and specialized handling
